

VOID KOTE

ASPHALTIC BASED PAINT LIQUID

- **Asphaltic Emulsion**
- **Single Component**
- **Waterborne Safe**
- **Fast Drying**
- **Safe & Easy to Use**
- **Protective Metal Coating**

A single component waterborne safe asphaltic emulsion that will remain flexible but safe to walk upon. Void Kote is ideal for new construction of barges. It is very resistant to water and moisture penetration and asphalt is excellent against mild acid attacks caused from coal or grain mixing with water. Void Kote has excellent adhesion and will not rub off or wash off. Void Kote is safe to torch. Surfaces should be clean, dry, have no loose material and preferably have the mil scale removed. Weld seams should be roughened to create a profile. Void Kote is heat resistant to over 250°F. Over coating mil scale which is very brittle does not ensure that the mil scale will not release from the steel.

TECHNICAL DATA

Percent Solids	59-62%
Odor	None
VOCs	0.005# per gal (0.6m/l)
Recommended DFT	4-8 mils
Theoretical Coverage	260-320 sq. ft.
Packaging	Drums or Totes
Colors	Grey & Tile-red

Manufactured by: Royal Coatings, Inc.
2705 Concord Road
Belle Chasse, LA 70037
